Hi RTT Sealant, please pass on to your team that we are very pleased with the product. As you may remember the roof at Coorparoo Education Precinct was in need of replacement but due to the cost of removing and replacing the aged roof mounted air conditioning units it was not possible with the limited budget available. Your roof coating solution eliminated the need for removal. All roof leaks were fixed after the product was installed. The team that attended to carry out the work were a pleasure to deal with always acting in a professional and safe manner.
